

# Study of Memory in Children with Down Syndrome

Researchers are seeking participants  
for a study investigating the use of a new  
computerized memory assessment in children with  
Down syndrome

## Participants must:

- Be between the ages of 6-17 years old
- Have a diagnosis of Down syndrome
- Speak English

The Drexel University  
Institutional Review Board  
has approved this study

Participants will be compensated \$40  
for each visit. Participation involves 3-4  
visits.

This research is conducted by a researcher who is a member of Drexel University.
