

Study of Reading and Language Development in Down Syndrome

Research Lab

ATTENTION:

Researchers are seeking child participants for an approximately 6 to 8 hour research study to help understand how children with Down syndrome learn important academic skills.

Participants must:

- Be between the ages of 6 -17 years old
- Have a diagnosis of Down syndrome
- Be native English speakers with English speaking parents

The Drexel University Institutional Review Board has approved this research study

Participants will be compensated \$20 per testing session. Parents will also be compensated \$20 to complete questionnaires.

APPROVED
Human Research Protection
Protocol # 1602004244-R002
Approval Date: 03/06/2018
Expiration Date: 03/05/2019

This research is conducted by a researcher who is a member of Drexel University.
